# Wisconsin 4-H Crops Financial Record & Management Summary

Accurate records help explain the results of your crops project and tell you whether your project resulted in financial profit or a loss. To have a complete crops project, this form must be submitted to your leader. You will collect most information during the course of the project. Try to record it as soon as you complete an activity or on a weekly basis. Project activities such as talks and exhibits should be recorded on an MPE form.

<b>Name:</b>	<b>Club:</b>	
<b>County:</b>	<b>Age (January 1st):</b>	<b>Years in Crop Project:</b>
<b>Which crop did you grow?</b>		<b>Size of field (in acres):</b>

## FINANCIAL AGREEMENT

Outline land, machinery, fuel, labor, seed, fertilizers and other materials agreement between yourself and parent or owner.

**D. CROP YIELD RECORD \***

Crop harvested	Date harvested	# of acres harvested	Yield per acre	Total yield (tons, bushels, bales)	Market value	Value of crop	
						Total	Member's Share
<b>Total (D)</b>						<b>\$</b>	<b>\$</b>

*\* If crop has not been harvested, estimate yield. If this is a small grain crop, include the value of straw harvested in the yield record (e.g., crop harvested: oat grain, oat straw). If a small grain was seeded to a legume, this fact should be recorded. The value of a good stand is equal to one-half the production cost of the small grain (or one-half of A + B + C).*
